💼 Professional Experience

Publicis Sapient, IN

Associate Technology L1
01/2023 – present | Noida

- At Publicis Sapient, I am a Front-End UI Developer, writing high-quality code with niche in ReactJS and to develop RESTful APIs making the websites more accessible, responsive and user friendly
- Implemented QR and barcode scanner using Web workers and web Assembly **(Zbar wasm, Zxing)** for a mobile application.

Junior Associate Technology
07/2022 – 12/2022 | Noida

- Used NextJS and Typescript to create an internal web application for documenting and sharing meeting notes and feedback from a One-On-One between developers and their managers using Universal React.
- Working in an agile development environment, I developed reusable, adaptable, scalable, and secure UI components by adhering to best coding standards and modular code architecture.

Software Engineer Intern
01/2022 – 06/2022 | Noida

- Implemented a training project, *C-Bank*, revolved around attractive and Interactive WebPages which would contain Bank driven content which would be anywhere and anytime visible to the website users.
- By taking website design files, we converted them into HTML, JavaScript (JS), or CSS code to build the core elements of Front-End Development, including layout, content, buttons, images, navigation, and internal links
